REPORT OF THE SCHOOL COMMITTEE.

The Superintending School Committee presents the following Report :

Perhaps the history of the world furnishes no broader and clearer illustration of any truth, than that penned by the prophet of ancient time : " My people are destroyed for lack of knowledge." Ignorance is destructive of the dignity, usefulness, virtue, and happiness of man.

It has been well remarked, " Human happiness has no perfect security but in freedom ; freedom none but virtue ; virtue none but knowledge ; and neither freedom, nor virtue, nor knowledge has any vigor, or immortal hope, except in the principles of the Christian faith, and in the sanctions of the Christian religion." But it may be still further remarked, and the truth of the remark is sustained by the testimony of the history of past ages, that the Christian religion itself has no security but in knowledge. If this view is correct, and we think it is, with what jealous care should the interests of the school-room be guarded.

None should be employed as teachers, who do not furnish evidence of good moral character, and whose educational qualifications do not come fully up to the standard fixed by the law of the State. But a good moral character, and a good education are not all that are necessary to guarantee success in teaching. There must be aptness to teach and a faculty to govern, or the school will be of little use. And should it be found, upon an examination of the school, that these qualifications are wanting, the teacher should be immediately indulged, by the unanimous voice, not only of the Prudential and Superintending Committees, but of the entire district, with the privilege of seeking some other employment. We have too many teachers at the present day, who do not like teaching, and only intend to follow it till they find some other situation, that will suit them better. We do not doubt that a few of this class of teachers succeed well in teaching ; but the sooner the most of them find some other employment, the better for our educational interests.

But, could we secure perfect teachers, we should not be sure of success, for there is a power behind the school-room, affecting the interests of the school, and it is felt for good or evil, according as it is exerted. I here refer to home influences. How many excellent teachers have found their efforts paralyzed by the parent justifying the child in habits of idleness and disobedience. Schools

will never be what they should be, till the parent co-operates with the teacher in creating and strengthening habits of diligence and obedience, in study and behavior.

Of the condition of some of the school-houses I need not speak, for they emphatically speak for themselves, declaring daily that they are totally unfit for the purpose for which they are used. Yea, they are standing epistles, known and read of every passer by. May the day not be far distant when they shall be numbered with the things that were, but are not, and others more worthy occupy their places.

Not being appointed Committee till after the close of the Summer Schools, I shall only be able to report the Winter Terms.

DISTRICT NO. 1. It will be remembered that the Winter Term of last year in this district, was reported unfavorably. We are happy in being able to report favorably of the *Winter Term* this year. The teacher, WM. O. FOLSOM, of Henniker, is a very thorough instructor, and good disciplinarian, and possesses the faculty of securing the love and respect of his scholars. As might be expected, the order was good, and the progress excellent. We sincerely hope his services will be secured in this district another year. The scholars are also worthy of much praise.

DIST. NO. 2. The *Winter Term* was taught by MARY A. CHANDLER, of Henniker. Miss C. labored faithfully, and her efforts were crowned with a good degree of success. We think no one would have done better; and have no hesitency in pronouncing her one of our very best teachers. We hope her services will be secured in future in some of the larger districts.

DIST. NO. 3. The *Winter Term* of this school was but nine weeks; and at the end of the fourth week it was found necessary, in consequence of sickness among the children of the district, to have a vacation of three weeks. This retarded very much the progress of the school. But the energy of the teacher, HIRAM G. PATTEN, was sufficient to secure a degree of progress seldom equalled in an uninterrupted term of the same length. The discipline of the school was excellent.

DIST. NO. 4. The *Winter Term* was commenced by MARY EATON, of Swanzev, an experienced teacher, having taught many years both in this State and Vermont. She came highly recommended, and passed a good examination. But strange to tell! in a few weeks the scholars found that she was not a competent teacher, and a number of them left the school. Under these circumstances, after an investigation by the Committee, she left the school at the close of the fourth week. After a vacation of three weeks the services of AMOS COLBY of Hillsborough were secured, who finished the term with credit to himself, and profit to the scholars. We would suggest to the parents of this district, that,

should they again be so unfortunate as to have an incompetent teacher, it will be best for them to keep their children in school till an investigation can be made ; and then, if justice is not done, it will be early enough to take your children out of school.

DIST. NO. 5. *Winter Term*, taught by SUSIE M. MARSH, of Henniker, was second to no school in town. Miss M. seemed wholly devoted to her work, is an excellent disciplinarian, and thorough in her instructions. Her services should be secured in town in future years,

DIST. NO. 6. Only one term during the year, taught by CARLOS F. HARDY, of Hopkinton. This school, we should judge, is so easy to govern, that the teacher can give his undivided attention to the studies pursued. Under these circumstances, the progress of the school ought to have been marked. Mr. H. succeeded *very well*, but a little more energy and thoroughness would have added much to the interest of the school.

DIST. NO. 7. The *Winter Term*, taught by CYRUS E. MARSHALL, of Newbury, was very satisfactory. The examination at the close of the term gave evidence of good progress, and good discipline. We think with more experience Mr. M. will make one of the best of teachers.

DIST. NO. 8. The *Winter Term* was taught by FRANK A. GORDON, of Henniker. At our examination at the close of the term, which was only eight weeks, we were surprised at the progress made in so short a time. The order was excellent, and with pleasure we pronounce it one of our best schools.

DIST. NO. 9. The *Winter Term* was taught by LUCY E. PERRY, of Henniker. This was Miss Perry's third term in this district, which speaks well for her as a teacher. But we were convinced, at our last examination, that she ought to be more thorough in her instructions in Arithmetic and Grammar. The order of the school was excellent, and the progress in a portion of the studies was very good.

DIST. NO. 10. *Winter Term*. We were unable to visit this term at its close ; but judging from its condition at our first visit, we doubt not that it was an excellent school. The teacher, JENNIE CLARK, of Henniker, appeared to love her scholars and her work. The scholars appeared to love their teacher and their books. And we were never better pleased with a school at its commencement than with this.

DIST. NO. 11. The *Winter Term* was taught by CHARLES H. DARLING, of Henniker. We do not claim perfection for any teacher. All have their faults. Mr. D. has his. But we do say, for the clear and thorough manner of imparting instruction, we have seldom found his equal, never his superior ; and, did we wish to employ a teacher, we know of no one we should prefer to him.

3 4677 00341839 4

DIST. No. 12. But one term in this district, taught by ELLEN F. CLARK, of Hopkinton. Miss C. is one of the very best teachers we know of. The progress of the scholars in every study was satisfactory. We hope her services will be secured in this town another year.

DIST. No. 13. The second term of this school, taught by MARY J. SMITH, of Londonderry, commenced before I was appointed Committee, consequently I did not visit the school till its close. Judging from the appearance of the school at this examination, a better teacher could not easily be found. The scholars, few in number, deserve much praise.

TABULAR STATEMENT.

Number of Districts,	1	2	3	4	5	6	7	8	9	10	11	12	13	14
Whole number of Scholars.	54	12	13	30	52	21	55	44	10	15	81	11	5	403
